Testing Infrastructure

*Universal Testing Machine

*Hardness Testing Machine
machine

*Cantilever Testing Machine

*Calibration Instruments

*Torque Testing

*Zinc Coat thickness testing

*Salt Spray Testing

*Magnetic Particle Machine

* Chemical testing for HCL/Flux

etc.

Within a very short period the following additional testing equipments are being installed in our laboratory to strengthen the capacity quality testing of the products.

*Spectromax Testing Machine

*Vickers Hardness Testing Machine

*MPI Testing Machine
